

Hi there. My name is Timothy Banfield and I hope you enjoy these audio files and make good use of them in you projects. You have many options to choose from for each line.

The files are set to low levels(-3dB or lower) so that there is no distortion or peaking. Set the volume the way you want it.

I also offer my services to you for dialogue in you project. And I am always happy to work with you and your budget. If you would like to reach me you may do so at tim@tbvo.net.
